EPA strives to make administrative changes to the Superfund program to make cleanup faster, fairer and more efficient. Under the Superfund Administrative Reform on improving the management of the Potentially Responsible Party (PRP) oversight while ensuring protective cleanups and to send oversight bills to PRPs in a timely manner. We believe that maintaining an open dialogue with PRPs about oversight expectations and PRP performance can improve the efficiency of response actions and minimize the cost of oversight. To that end, we would like to offer to discuss with you our plans for oversight for ongoing and upcoming work at the Westlake Landfill OU-02 site and to provide you with the opportunity to suggest ways to effectively streamline the work and its oversight.
